If a charter school does not receive an A-F rating, it does not receive an overall rating.

The Charter School Performance Framework report is an overall district-level report that is designed to provide parents, the public, charter operators, and the authorizer with information about each charter school’s performance. The CSPF includes three frameworks that measure the academic, financial, and operational performance of a charter school. The [2019 Charter School Performance Framework Manual](#) describes the 2019 indicators, ratings, performance expectations, data sources, and other helpful information.
