Ki Charter Academy will ensure that children with disabilities continue to receive a free appropriate public education (FAPE) and may spend ESSER III funds on allowable special education and related services expenditures. This includes such activities as increasing teacher effectiveness and addressing inequities in the distribution of effective teachers; establishing data systems and using data for improvement; and providing effective professional development related to evidence-based practices and interventions.

Summer Learning: Ki Charter Academy's summer learning program uses certified instructors to mitigate the learning loss of students caused by the COVID-19 pandemic. In addition to one-on-one tutorials and small-group instruction, the summer learning program will include increased instructional time, increased peer interaction, and opportunities for students to

improve TEKS mastery. Instructional activities will concentrate on improving achievement results for low income students, students with disabilities, English learners, racial & ethnic minorities, students experiencing homelessness and children in foster care. Summer learning activities will be conducted in such a way as to help safely reopen and sustain the safe operation of the campuses.

Afterschool Programs: : In order to mitigate the learning loss of students caused by the COVID-19 pandemic, Ki Charter Academy's afterschool program will provide critical academic support to its students. This will be accomplished through online class offerings, and one-on-one and group tutoring sessions. Various communication options will be available to allow district staff to stay in touch with parents and guardians. Staff also regularly communicate with regular day teachers to determine what specific assistance will help particular students and which students would benefit from additional support and if there are students who the program can check in on. ESSER III funds will be utilized to purchase Chromebooks, school supplies for afterschool activities, books, and certified teachers and paraprofessionals to provide instruction specifically targeting low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, & children in foster care. High-quality assessments: In order to mitigate the learning loss of students caused by the COVID-19 pandemic, Ki Charter Academy will be administering and using high-quality assessments that allow for students to use assessment data to make choices about their areas of concentration and focus. Creating an environment of "choice" that helps to spur student motivation and provide complete visibility into individual student knowledge and readiness and that leverages assessment to understand precisely what each student does (and doesn't) know. Assessment instruments that produce valid and reliable results and offer connections to standards-based instructional resources by including learning objects, including that are interactive and responsive. Ki Charter Academy's structured assessments provide a high-level view of student knowledge and facilitate comparative analysis. The quantity of performance data is translated into meaningful, actionable reports that pinpoint current student progress, predict future achievement, and inform instruction. Resulting data will be used by administrators to run various levels of reports, detect patterns at all grade levels, and reveal academic areas that require additional resources. All activities will be conducted in such a way as to help safely reopen and sustain the safe operation of schools.

Implementing evidence-based activities: Ki Charter Academy's evidence-based program mitigates the learning loss of students caused by the COVID-19 pandemic by using certified instructors to implement strategies that are informed based on real-time assessment results. Evidence-based instructional activities will concentrate on improving core academic achievement results for low-income students, students with disabilities, English learners, racial & ethnic minorities, students experiencing homelessness and children in foster care. Summer learning activities will be conducted in such a way as to help safely reopen and sustain the safe operation of the campuses.
